#### MSAN (Minority Student Achievement Network)

East Lansing Public Schools is pleased to announce a new relationship with the Minority Student Achievement Network (MSAN). MSAN is a group of like-minded districts across the United States working to improve the achievement of minority students. Their fundamental goal is: “to ensure that racial differences in achievement are eliminated while we improve achievement for all students.” Through our relationship with MSAN we will be collaborating with research practitioners, school staff, university affiliates, regional and national association affiliates, and our local stakeholders to ensure all that is gleaned from our partnership is manifested in our work to improve the achievement of our students.

Several MSU sponsored events are listed as links that we believe support our work to improve our understanding of and the support of our educational community as well. Please take an opportunity to engage in them. Likewise, you will find the link to MSAN (<http://msan.wceruw.org/>) a useful and informative tool to engage in significant discourse and informed decision-making concerning student achievement.
