3306 Construction Bidding

The Board will comply with applicable laws and this Policy for the construction of a new school building or an addition to or repair or renovation of an existing school building (a "Construction Project").

A. When Competitive Bidding is Required

1. The District must competitively bid all labor and material for a Construction Project if the project cost exceeds the then-current state bid threshold published annually by MDE (the "Bid Threshold").

2. The District must competitively bid energy conservation improvements, operational improvements, or the removal or treatment of asbestos or other material injurious to health for school facilities, if authorized under Revised School Code Section 1274a and the cost exceeds the Bid Threshold.

3. The District does not need to competitively bid a:

    - Construction Project costing less than the Bid Threshold;
    - contract for repair in emergency situations;
    - repair normally performed by District employees; or
    - professional consultant contract.

B. Bidding Procedure

1. If competitive bidding is required, the District must follow the bidding procedure prescribed by Revised School Code Section 1267 and award contracts to the lowest responsible bidder.

2. To determine whether a bidder is a responsible bidder, the District may consider the factors enumerated in Policy 3301 subsection C.3.b.

3. If competitive bidding is not required, the District may use any lawful means to procure contracts.

4. Each bidder must certify that it is not an Iran-linked business as defined by MCL 129.312.

5. If federal or state prevailing wage requirements apply, project specifications must include the schedule of minimum rates to be paid to each relevant class of construction mechanic or laborer. If state prevailing wage requirements apply, the schedule of minimum rates must also be printed on bid forms.

For any Construction Project, the District may apply a preference to a Michigan-based business as described in Policy 3301 subsection C.4.
