1	The fact that data services calls pace on us (who work in the building) and tells pace to ticket us is unacceptable!!	6/3/2016 8:33 AM
2	Our custodial service is terrible---our classrooms are always filthy, the bathrooms are often out of toilet paper and soap, and the buildings always look dingy.	5/31/2016 7:25 AM
3	Parents should not be dropping students off in the staff parking lot, also students should not be parking in that lot. I think more needs to be done with visitors including substitutes and people who are here often and their identification. They need to have a visible worn all day means of identification. More security on main entrance after school starts (buzz in...) Everything needs to be weeded and the middle courtyards need some improvement.	5/26/2016 8:38 AM
4	Turning into the staff parking lot in the morning and getting out is a mess; traffic gets backed up in the mornings on Brucham. I have almost been hit by parents in their cars as they speed up after dropping kids off in the student parking lot. Kids on bicycles are not safe in that area in the morning. If I need to leave the parking lot right away after school for an appointment or if there is a pressing issue with my own children, getting out of the staff parking lot after school cannot happen without a LONG wait due to the high number of parents parked along the rows blocking cars and lined up to leave.	5/24/2016 9:16 PM
5	Parent drop off at the high school in the teacher parking lot is a problem, sometimes you can't leave because parents are parking behind you so you can't get out. When walking into the building parents don't stop to let you go buy.	5/24/2016 6:20 PM
6	At the beginning of the year there was an officer helping to direct the flow of traffic in front of the HS and this was very helpful.	5/24/2016 2:53 PM
7	I am in and out of all the buildings and sometimes cannot find a parking space at the elementary buildings. It is impossible to leave some elementary buildings near the end of the day as parents are waiting to pick up their children.	5/24/2016 2:23 PM
8	Salting the parking lots/sidewalks on icy days when arriving to school early in the morning and when leaving at the end of the school day.	5/24/2016 2:17 PM
9	Parents blocking flow of traffic in parking lots	5/20/2016 8:39 AM
10	High school could use a good clean up. Exterior landscaping is looking a little messy. Courtyard areas are neglected.	5/19/2016 9:19 AM
11	Parents are NOT using the parent drop off area. Instead, they use the teacher parking lot and the teachers have to dodge their speeding through the parking lot and are unable to use our walkway because they park in front of it to drop off their kids.	5/19/2016 8:00 AM
12	Leaving when school gets out is very busy with parents using the event evening parking area to pick up kids.	5/18/2016 8:31 PM
13	too many parents feel they can come and drop/pick up children while the busses are doing the same. at whitehills, donley & pinecrest children will rush the bus in the pm while we are still moving. unsure if that's from the sidewalk being the same height as the road. at the middle school the bell time is too close to the bell time at the high school. a few busses need to drop students off before the head to the middle school and when they arrive at the middle school they run up to the bus while they are still pulling to the sidewalk. either we need adults supervising or a longer time to between the school dismissing.	5/18/2016 6:17 PM
14	parent drop off in staff parking and the traffic entering/exiting is excessive and dangerous at peak times. Staff entrance from Library drive would be a benefit and alleviate this problem as originally proposed when the traffic patterns were established during renovation/construction	5/18/2016 2:51 PM
15	1. Many doors propped open at the high school 2. Many cars parked in fire lanes 3. Traffic pattern to get in to parking lot in AM is crazy	5/18/2016 2:49 PM
16	Cleaning classrooms	5/18/2016 2:36 PM
17	Special ed buss blocking parking traffic in the data services lot.	5/18/2016 1:39 PM

East Lansing Public Schools Facilities Assessment Staff Survey

18	I think the landscaping that was once new has been let go. There are lots of weeds in the grass and new mulch needs to be put down.	5/18/2016 1:27 PM
19	Parents are crazy drivers... I'm not sure much can be done to help with drop off/pick-up.	5/18/2016 9:56 AM
20	run into fast driving cars in the morning.- perhaps put up a speed limit sign	5/18/2016 9:04 AM
21	There have been several close calls with students being dropped off and staff walking in and out of the school. It is just a matter of time before someone is hit and seriously hurt. Staff must cross the flow of parents dropping off. This is particularly bad when it is dark and icy. The area is poorly lit, and there is often a big puddle/icy patch that needs to be navigated.	5/18/2016 9:01 AM
22	I offer each year for my Environmental Science students to spread mulch throughout the flower beds at the high school and am never taken up on it.	5/18/2016 8:57 AM
23	Poor attention to grounds. Weeds, bare dirt, trash containers overflowing or broken. In winter the sidewalk adjacent to the staff parking lot needs to be cleared better of snow and ice	5/18/2016 8:48 AM
24	leading up to front door. any place that has been established as garden, etc needs to be maintained.	5/18/2016 8:42 AM
25	Parents who pick up/drop off their students in the back parking lot creates congestion and the 700 wing door is not secure because of this. Students come and go through this door all day long	5/18/2016 8:41 AM
26	Outside doors are NOT secure as the 700 wing door is used by students during the day and parents pick up students there as well. Back parking lot should be for teachers/admin ONLY. Parking lot could be secured with a gate and use of a key card.	5/18/2016 8:32 AM
27	The school sign at the west entrance to the high school blocks the vision of drivers leaving the parking area. Traffic coming from the east on Burcham cannot be seen well with the positioning of that sign.	5/18/2016 7:53 AM
28	Grounds look like crap. First thing people see is the grounds and they are terrible at all buildings	5/17/2016 8:05 PM
29	Back dock door needs to be repaired in a more timely manner so trucks can load and unload in quick safe manner.	5/17/2016 7:25 PM
30	Parent drop off/pick-up is pretty chaotic. Parents pull into the staff lot and drop students off and pick them up in random places. This makes it difficult to manage arrival and departure for staff. Okemos does not even allow parents into the staff area for some of the reasoning mentioned above. The system can run much smoother in my opinion.	5/17/2016 6:57 PM
31	Lots of illegal parking during events. Cars in bus turn around and parking curbside at intended drop off locations. Very difficult to bring in emergency vehicles if needed.	5/17/2016 5:40 PM
32	Entry/exit from Burcham, parents not using the circle, early morning participants using teacher spots	5/17/2016 5:32 PM

3	The students come and go ALL DAY LONG through the various emergency exit doors around the building. They text a friend to come let them in a certain door. They helps them skip classes and re-enter the building unnoticed. I see ALL DAY, EVERY DAY!!!! If you put an alarm on theses doors so when the students open them to allow their skipping friends in, this will stop! SIMPLE FIX!!!!	5/19/2016 8:05 AM
4	Way to many outside doors are propped open after school and on weekends.	5/18/2016 8:34 PM
5	As a bus driver I am unable to comment on these issues	5/18/2016 6:28 PM
6	Poor heating/cooling in classrooms.... and windows that leak (recycled from previous building) and lack screens. My room stays cold during the day and hits 80 degrees by 4 pm in the winter. Blower is also very loud and impends instruction /listening	5/18/2016 2:55 PM
7	Drafty and sometimes very cold in the HS Auditorium control room. Lighting in the main gym is dim.	5/18/2016 1:45 PM
8	PA system cannot be heard in the gym or Student Union. The band and orchestra teachers need some kind of flashing light in the room when their phone rings. They never hear it ring because of the instruments.	5/18/2016 1:31 PM
9	Everything works in my room and I have control over my heat/cooling in my room, so I'm happy!	5/18/2016 11:29 AM
10	The front doors to the high school are unlocked and anyone can walk in. I feel like a better system needs to be put in place so as to know who is coming and going from the building for increased safety.	5/18/2016 10:00 AM
11	I believe the building security is just a fad, the state fire marshal and building codes dictate the number of exits in a building along with ADA measures, I know in the past we have sold security as a issue to pass a bond or remodel, but the truth is if someone wants to get into a building there is always a way, from staff leaving doors unlocked to propping doors open to stones being stuck in frames, etc...lets stop trying to sell bonds on site security as that is nothing more than a scam to get the bond approved. Once you put in a lighting system you are stuck with the lighting system provider for parts & service, putting motion sensors in spaces just drives up light bulb and light ballasts failures and drives up electrical consumption with lights going on and off all the time....Need to switch over to LED's in gyms, and hallways where those lights are on for long period of times, that will save energy dollars and reduce repetitive maintenance repair costs.	5/18/2016 9:56 AM

14	The science wing is terrible...super hot one minute frigid cold the next.	5/18/2016 9:00 AM
15	There are too many exterior doors and not all of the shut and lock when students exit. The heating and cooling, although better still varies quite a bit from room to room and hour to hour. It would be nice if we had access to the HVAC system control (including on weekends)	5/18/2016 6:46 AM
16	I cannot choose whether or not I have air-conditioning. I do not want it. It gives me a headache. I wish there were more choices about how I have my lights. My room is right by a door. It is supposed to be locked at all times, but kids sneak in and out to go smoke in the woods.	5/17/2016 5:43 PM

1	The difference between the temp. From room to room is extreme.	6/3/2016 8:37 AM
2	Not sure if the water in all of the rooms has been checked. I heard science rooms and the library sinks have not been checked.	6/1/2016 10:49 AM
3	There are far too many doors for students to prop open and sneak in and out of. Heating/cooling is a daily crap shoot, so I'm never sure what I should wear. As far as building finishes, there are numerous areas that just have not been maintained.	5/31/2016 7:30 AM
4	Restrooms are always dirty with many times nonworking faucets, no toilet paper or paper towel. Old drinking fountains need to be replaced.	5/26/2016 8:53 AM
5	I have had a few issues here and there with the heat going out, but maintenance has been able to fix it very quickly.	5/24/2016 9:18 PM
6	It gets so cold in some rooms and others hot	5/24/2016 6:24 PM
7	I understand the nature of the building makes HVAC difficult. Drafty windows are an issue in the winter, and the ID card reader on the main office door of HS doesn't work.	5/24/2016 2:55 PM
8	When school is in session, visitors should be required to "buzz" in with a camera outside to see who is trying to enter the building.	5/20/2016 2:00 PM
9	Some malfunctioning water fountains at high school. Could use more staff bathrooms.	5/19/2016 9:20 AM
10	Hot water pours through drinking fountain. Water pressure is very weak. Sinks in girls bathrooms are often plugged. Toilets in girls bathroom "run" and also in the downstairs teacher lounge- what a waste of water!	5/19/2016 8:05 AM
11	Could use a few more drinking fountains in the locker commons, always a big line to fill up water bottles but I love the new fountains where kids can fill up bottles.	5/18/2016 8:34 PM
12	Water is too hot in restroom sinks and some drinking fountains	5/18/2016 2:55 PM
13	classroom cleaning Concern for tornado drill locations(next to windows??)	5/18/2016 2:38 PM
14	ON/OFF sensors on the bathroom sinks don't always work.	5/18/2016 1:45 PM

16	Fire alarm system needs to be replaced, the current remote pad's have plastic relays soldered onto electronic boards.. that are faulting out frequently, the manufacturer for replacement parts indicate you might experience the same problem even if you replace the electronic boards @ a cost of approx 3,000.00 each. The data service a/c units are 14 years old and are experiencing approx 5,000.00 a year in service repairs. The rooftop units range in age from 11-15 years old, all have the old obsolete R-22 refrigerant, dampers are leaking cold air into spaces when units are off, some building finishes need to be upgraded so the building will have another 20 or so years....Carpeting is approaching end of life since we don't steam extract clean them since we contracted out custodial....The floor tile in science/art and locker commons area's need to be upgraded as the old concrete floors have leveling compound that is breaking loose, the heavy custodial riding floor equipment has exceledated the break up of the leveling compound.	5/18/2016 9:56 AM
17	The HS music wing always has issues with the heating and cooling system throughout the year. Not all light setting work either in the classrooms	5/18/2016 9:18 AM
18	The science wing is terrible. I have 8 faucets, 2 dont work and 2 others have incredibly low water pressure. Also, during the winter a sewage odor will back up into my classroom.	5/18/2016 9:00 AM
19	Floors need to be cleaned more often in special areas	5/18/2016 8:54 AM

1	This room is often unavailable due to breakfast and lunch tables and clean up afterwards.	5/24/2016 3:07 PM
2	The Cafeteria is so crowded that at least 50 students come upstairs to eat in the library or the hallways	5/19/2016 8:13 AM
3	as a driver I don't see any of these items	5/18/2016 6:30 PM
4	Poor projector and sound in the student union (HS) and library. Windows w/o shades in union may contribute to the problem.	5/18/2016 3:07 PM
5	*need curtains to block sun for PD sessions,testing *ability to make room smaller	5/18/2016 2:43 PM
6	Student union could use some more accoustics,	5/18/2016 10:02 AM

1	Computer and science labs do not have enough stations to accommodate our current class sizes.	5/31/2016 7:35 AM
2	There is not enough space for offices or testing areas. No storage space for non-classroom staff.	5/24/2016 3:07 PM
3	Access to resources in the copy rooms when Laura Scott or Jane are not present. We cannot get basic supplies if they are not present, and sometimes I cannot get down to that space until after they have left, or on the weekends. Why can't teachers get to our own supplies?	5/24/2016 3:04 PM
4	The staff needs more copier areas. We can only print to two copiers: one down stairs and one upstairs. There are other copiers, but Christian Palasty has the set up as that we cannot select to print to the other copiers. This is a HUGE problem. If one copier is broke, which is frequent, that means the entire staff is trying to print their daily worksheets to ONE copier.	5/19/2016 8:13 AM
5	Department space at the HS might be nice. Located by colleagues and having shared space may facilitate collaboration. Department space was sacrificed during remodel/construction.	5/18/2016 3:07 PM
6	Hallway next to new admin offices is a waste of space. It is not used by the student population which for which it was originally intended.	5/18/2016 1:52 PM
7	The high school is so large it's hard to navigate at times. My position requires me to be in multiple different rooms throughout the day and it can be difficult getting to where I need to be on time.	5/18/2016 10:06 AM
8	Departments are spread out, lack of common work area.	5/18/2016 9:09 AM
9	We have the space but not the resources. The science department should have a para pro that logs chemicals and cleans glassware. This would be using the space efficiently	5/18/2016 9:02 AM
10	the space itself is fine. The departments are separated which makes it difficult for collaboration.	5/18/2016 8:49 AM
11	We have a teacher workroom, a science storage room and a chemical storage room which should all be maintained. We are short on storage for science supplies, however.	5/18/2016 6:49 AM
12	Navigation is difficult for efficient passing time.	5/17/2016 6:31 PM
13	More non-instructional work space	5/17/2016 5:51 PM
14	I wish my department was in one area of the school	5/17/2016 5:46 PM
15	Departments are too spread out. Not any storage space for departments, and no collegial space for planing. No large group/ multi group space for instruction.	5/17/2016 5:42 PM

1	More stations for computer and science labs.	5/31/2016 7:35 AM
2	Office or testing space. Conference/staffing space. Alternate testing space.	5/24/2016 3:07 PM
3	The HUB is really the only project space at the high school. It would be nice to have more options when the HUB is booked.	5/24/2016 3:04 PM
4	1) Access to more than two copiers for the staff. Christian Palasty can easily fix this by allowing the staff to print to the copier in student services. Student services can also print there, and print to the copier in the office if they need to. (also, there is a second copier downstairs in the teachers lounge, but again, Christian has it so teachers can only print to ONE of them. Again, we are only able to print to TWO copiers in total, due to his settings). :-(5/19/2016 8:13 AM
5	Class rooms of similar size (previous section) should also be examined. Too many students in small room can be a problem often overlooked. Not sure of what new spaces might be beneficial?	5/18/2016 3:07 PM
6	Benches for students to sit on in hallways(by night entrance, in commons. Study stations in hallway or desks	5/18/2016 2:43 PM
7	none	5/18/2016 11:31 AM
8	Secure and equitable (technology/acoustics)office/student work space for non classroom teachers and staff.	5/18/2016 11:03 AM
9	While I believe we should steer students into skilled trades, we really don't have a building for that so students will need to pursue skilled trade @ intermediate district level, the wood shop hasn't been used much, I think that should be dismantled and turned into a space that students could use for education.	5/18/2016 10:02 AM
10	Ms music and arts wing is too small. We do not have enough space for all the kids.	5/18/2016 9:21 AM
11	Commons work areas for departments.	5/18/2016 9:09 AM
