

I am thankful for my family because when I am hurt they help me feel better. My mom, dad, sister, brothers, grandparents, aunts and uncles, cousins. It happens everywhere I experience this a lot they either give me a band aid or a hug. One person I want to write about is my mom: she helps me with my homework and she buys me comfy clothes that I can wear. She gets me protein drinks that taste like chocolate milk and looks like it.

My mom and I go to the movies Sometimes we do not go very much any more. We walk the dogs together. Sometimes we go to the woods and let them off the leash we run and explore with them. It's really fun. Sometimes on the weekends we walk to the farmers market. It is so much fun there they have a playground that's really fun. My mom and I get cider slushies together. We have a lot of fun together. Sometimes we go shopping together like: clothes shopping, shoe shopping, grocery shopping.

Another person I want to tell you about is my dad. He is super nice. Sometimes we go to the school playground in Dimondale near where we live. In the summertime on the nights he doesn't have work the next day stay up until 10 o'clock. If I skin my knee and start crying daddy comes to the rescue. We take turns throwing the ball to Jo, our puppy. She is an energetic puppy and it is fun to play with her. Sometimes in the summertime out for ice cream If I had to name our favorite ice cream flavor I'd say mine is mint chocolate chip ice cream and dads is butterfinger. We swim in our pool together. It is really fun.

Another person I want to talk about is my sister. She is so loving and kind. She is the best sister ever! In the spring and summertime we do sidewalk chalk.

she reads to me and I read to her sometimes. We did yoga once together. It was really fun one time when I was little I walked across her body to massage. It was not easy for me to balance on her back. I fell off a couple times. We like to play games together.

Another person is my brother Pablo. I love him so much sometimes we wrestle. It is super fun. We always wake up early on fathers day to make breakfast for dad but sometimes I have to say come on pablo because he did not get out of bed and then we go down stairs and pablo helps me make the oatmeal and then we make toast but dad is awake in bed by then. well my other brother Austin we don't do much together.

Another person is my grandma. We went shopping together and we once made a felt gnome together. It was fun. It turned out so cute we used a hot glue gun. Another is my grandpa. We rode the quad through the woods once it was fun.

Another is my aunt Kelly. I ride her horse Sarah. It is so fun. My uncle rob he is super fun he gives hard hugs. the person I am really excited to write about is my cousin zander he is awesome we have a lot of fun together we ride the quad together we drive through fields and mud puddles it is super fun we once had a nerf gun war with his friend milo it was pretty fun until he got angry over something silly and went to ride the quad but me and milo had fun we practiced shooting with the nerf guns.
